

# Whiskey

Song by Burna Boy

## Lyrics

I fall too easy when I pour the whiskey  
But no be disability o, no be disability o  
I fall too easy when I pour the whiskey  
But no be disability o, no be disability o

Some people bind and cast  
Some of them pray and fast  
I see see pastor don dey fat  
Shey na the thing God command  
Because of oil and gas, my city so dark  
Pollution make the air turn black  
Every man have to stay on guard

I fall too easy when I pour the whiskey  
But no be disability o, no be disability o  
I fall too easy when I pour the whiskey  
But no be disability o, no be disability o

People dey wey dey sleep for their mouths, dey get no work  
Some they walk on the other side of town dey dem for hold up  
some they pray for the traffic make dey hail you make you show love  
and when e reach to dey go back home you go go club  
I no say e no easy, my brother  
'Cause you dey take am easy, my brother  
As long as you are breathing, my brother  
As long as you no sink inside di water

I fall too easy when I pour the whiskey  
But no be disability o, no be disability o  
I fall too easy when I pour the whiskey  
But no be disability o, no be disability o

People dey wetin pray for the rain but e no fall  
Rain dey fall for another man place and e no stop  
E be like swimming pool for him house as e don flood  
All the things wey him get for his house many don lost
